

Exhibit 1 — Records disagree: 29-02-408-053-0000 (Dolton, IL)

CRM Reality Audit · attested re-run of 2026-08-02 · pre-registered method (audit/PREREGISTRATION.md) · every citation resolvable in the frozen snapshots (audit/MANIFEST.md)

FINDING

The CRM lists parcel 29-02-408-053-0000 as **Sold** on **2017-01-01**. Cook County's recorded conveyance for that period is a **warranty deed — document 1717247010, sale date 2017-06-16, \$65,000 — from RICHARD THORTON to CSMA BLT, LLC**, neither party matching the client under any attested alias. Across every assessor roll year returned for this parcel (1999–2026), the client never appears as owner or taxpayer of record — the county's records and the CRM's claim cannot both be correct as stated.

This characterizes records, not people: two record systems disagree, and this exhibit cites exactly which documents disagree and when they were retrieved.

CITATION CHAIN

The claim — CRM extract (frozen 2026-08-02, source sha256 8d42089d...7067): USER_ppn 29-02-408-053-0000 · USER_disp_status "Sold" (verbatim) · USER_date_disposed 2017-01-01.

The contradicting conveyance — Assessor Parcel Sales (Socrata wvhk-k5uv, retrieved 2026-08-02): document **1717247010**, deed type **Warranty**, sale date **2017-06-16**, price **\$65,000**, parties verbatim RICHARD THORTON -> CSMA BLT, LLC. The only recorded conveyance within ±366 days of the claimed disposal date; no recorded conveyance for this parcel names the client on either side.

The ownership chain — Assessor Parcel Addresses (Socrata 3723-97qp, retrieved 2026-08-02), owner of record by roll year:

Year	Owner of record (verbatim)	Row id
1999–2004	ROBERT STOKES	290240805300001999 ... 2004
2005	REGINALD SMITH	290240805300002005
2006	STD BK TR 15043	290240805300002006
2007	CELESTINE TRUSSELL	290240805300002007
2008–2015	LAWANDA TRUSSELL	290240805300002008 ... 2015
2016	CSMA BLT LLC	290240805300002016
2017	FIRST KEY HOMES	290240805300002017
2026	FIRST KEY HOMES	290240805300002026

The client appears in no roll year. Tax-sale datasets (55ju-2fs9, ydgz-vkrp, retrieved 2026-08-02): zero rows for this PIN.

Pre-registered coverage caveat: the Parcel Sales dataset is transfer-declaration-derived; exempt conveyances may be structurally absent. Absence is reported as "no machine-readable record found in the queried datasets" — never as a statement about the world.

SELECTION CRITERIA (APPLIED IN ORDER, PRE-STATED)

- **(a) Post-attestation stability — PASS.** CONTRADICTED (rule D3) in baseline and attested re-run; no uncertain ruling touches this parcel.
- **(b) Citation completeness — PASS.** Status verbatim, contradicting document with doc number / deed type / date / parties verbatim, assessor rows by year, retrieval dates throughout.
- **(c) Independence from interpretation — PASS.** No heuristic classification, no alias inference (no client-resembling string in the parcel's records, separator-variant scan included), no deferred status semantics.
- **(d) Explanation economy — PASS.** The finding is three sentences.
- **(e) Diversity — moot.** Sole survivor of (a)–(c); see exhibit-selection.md for the honest-number accounting.

Independent corroboration: this parcel is the audit's pre-registered known-answer; the full M-RI-11 title-belief dossier reached the same contradiction independently.

REPLAY

```
python -m audit.rerun_attested --pin 29024080530000
```

Reconstructs this verdict from the frozen snapshots (sha256 chain in audit/MANIFEST.md) plus the operator attestation events (audit/attestation/attestations.yaml, sha256 0fa33a42...b0f4). Replay verified clean 2026-08-02: verdict CONTRADICTED (D3), identical to baseline. Full-run replay: `python -m audit.rerun_attested` — byte-identical across runs, checks C1–C5 pass.
